Next in the game ESO Plus subscription Prev Start game Best First Character This page Senior Scrolls Online Guide has information on how to manage multiple characters. You'll learn, for example, how many characters you can create in TESO, how to unlock more character slots, and how to remove the character and what the consequences are. When you start the game for the first time, you will be met by the creator of the character. After the game is restarted (or after the first session ends), the main menu will have select Character option. By default, the number of characters is eight - you have complete freedom in creating them. You can have, for example, multiple characters of the same race, alliance, or class. If you want to change the character, click Log Out in options to return to the main menu. You can remove the characters in TESO - select the character and press the right button. However, there are some extremely important things to know: Once the symbol is removed, you can't get it back. Having a backup save doesn't help here either. Since TESO is an MMO, you can't manage to save files. The number of possible removals is limited. Once the character is removed, you will lose all the items he had in the inventory. If you want to keep any of the items that have been used by your character, you should visit any pot in the gaming world and make them. This is especially important for products purchased from microtransactions - Crown Store uses real money. Don't forget to deposit these items into the bank, otherwise you will spend the money spent on their purchase. The game does not remove attachments, pets, outfits and updates. They are constantly assigned to your TESO account, not to individual characters. To confirm your decision, you need to press all the buttons shown on the screen. Only then will the character be removed. If the default number of character slots isn't enough for you, you can buy more slots. Go to the Update tab in the Crown Store. The additional character slot costs 1500 kronor - it adds 1 new character slot. You can purchase a maximum of 10 slots, meaning you can have up to 18 characters. Next Running game ESO Plus subscription Prev Start game Best First Character You have already been notified of this answer. Request notifications successfully submitted by No Windows Steam Mac OS Xbox One PS4 Stadia Character Removal feature is reset approximately every 24 hours. If you still can't remove the symbol after 24 hours, you should contact our dedicated customer service team for help. The request for help should include the name (s) of the injured character (s). You can only create one character per account for The Elder Scrolls: Blades. Once a character has been created, it cannot be removed. However, you can change the look, race and gender of your character. To do this, visit Theodore Gorlash at the front gate of your village. He has the ability to change yours View. This will allow you to choose race, gender and your character. Home English Common Discussion 7 Days to Remove Character!? What will I lose if I remove the symbol? When I try to remove any of my characters it warns me: Removing a character with items from the Crown Store or items obtained through the ransom codes in its inventory will result in these items being lost from your account it's so confusing. So when I first bought ESO, I got the Imperial Edition, now obviously that was activated on my first character. Can I remove my first character and keep Imperial Redemption because it is now on my other characters? Also, if I remove my 5th character, which also has Imperial Edition Elements like all my others, will it result in Imperial Edition items being removed from all my accounts? If so, then this is a pretty broken feature and basically means that all the characters you create are intransigent if you don't want to lose items on your account you purchased in the Store Crown Published byu / removed 3 years ago Sorry, this post was deleted by the person who originally posted it.
